Forecast for Saturday 30 Oct 2021

Weather: Occasionally heavy rain at first on Saturday morning clears north and east by mid-morning, leaving sunshine and only a few well scattered and mainly light showers for the afternoon. Largely dry and clear for the evening.

Chance of cloud free mountain/hill tops above 800m: 10% at first becoming 80% from late morning.

Visibility: Moderate or poor early rain and briefly in later showers, also very poor in cloud covering summits with bases extensive around 450m in early rain, infrequently to 600m in later showers.

*Level above which ground is expected to be frozen/snow is expected to settle.

Meteorologist's View

Hazardous conditions in early rain, hill fog.

Forecast for Sunday 31 Oct 2021

Weather: Continuing with the mix of rain or showers. This time the longer periods of occasionally heavy rain should clear sooner, before mid-morning. Thereafter some limited brighter spells between quite frequent showers, with some turning heavy, bringing the risk of hail and thunder.

Maximum wind: South to Southeast beginning 35ph with gusts to 50mph across most exposed ridges and summits, easing a touch late in day.

Chance of cloud free mountain/hill tops above 800m: 10% at first becoming 70% from mid-morning for any given time, but little chance of prolonged clear conditions due to the showery nature of the flow.

Visibility: Moderate or poor in early rain and occasionally in later showers, also very poor in hill fog with bases extensive in early rain, sporadically in later showers from 450m.

Temperature: **Valleys:** Plus 7 degrees Celsius becoming plus 12 degrees Celsius during the afternoon

At 800m: Plus 3 Celsius

Freezing level: Above summits
